Teacher Evaluation

Please write comments to help us communicate better to seminar participants.

1. Please rate the organization of class material (excellent, very good, good, fair, needs improvement).
2. How was the balance of lecture and practice (physical)? Was there too much sitting? Should we cut some of the lecture material? Too much physical work for one six-hour seminar?
3. Were there enough exercises in the role-playing assertiveness section? Would you want to spend more time and work through more scenarios?
4. Was there information on which you would have preferred to have more emphasis?
5. How was the space? Would you like more mats, more breaks?
6. What do you feel is the optimum class size - how many students would work best?
7. Please list specific comments for the instructors.
8. General comments please.
